

I think that Airl is one of the better stations out here in MN.

It is all I listen to in my truck.

It plays no local news, commercials or weather.

I can get that from the locals, which I chose not to listen to.

I think that as a consumer I need to be able to make choices in what I listen to, what my kids listen to, also.

we chose Airl over anything local.

For us to lose this radio station would be a great lose to our community and limit our listening to radios.
